1. Slash cuff placket openings on sleeves as marked on pattern.

2. Stitch narrow hems along edges of each placket opening.

3. Place placket edges right sides together and stitch small dart at top end of each placket.

4. Fold placket edge closest to sleeve center line 10 mm to wrong side and machine-baste it in position.

(5A. Pleated sleeve edge: Compare the width of bottom edge of sleeve with pattern for sleeve cuff. Fold the extra width of sleeve edge into one or two 2…3 cm deep pleats, placed between sleeve center line and cuff placket. Fold pleats to open toward cuff placket and machine-baste them in position.

5B. Gathered sleeve edge: Sew two rows of gathering stitches along bottom edge of sleeve and gather edge to fit sleeve cuff.)
