

“STREET” text for T-shirt

Pictured in OTTOBRE design® 1/2006, pages 62-63.

MATERIALS

For print:

- white fabric paint
- scalpel or small sharp scissors
- plastic sheeting (e.g. plastic pocket) for template
- spray adhesive, Gold-Zack
- painter's tape
- disposable plate and spoon
- piece of sponge

For appliqué:

- piece of turquoise knit or woven fabric
- embroidery thread
- tear-away backing, Vlieseline® Stickvlies
- double-sided fusible web, Vlieseline® Vliesofix
- water-soluble embroidery stabilizer, Vlieseline® Soluweb

Read the instructions and experiment making the appliqué and print on a scrap of fabric before starting!

INSTRUCTIONS

Apply the appliqué and print to the front panel of the T-shirt before assembling the garment.

1. Trace letters “STR” and “ET” on plastic sheeting and cut shaded parts of motif out.

APPLIQUÉ

2. Trace big letter “E” as **mirror image** on paper-backing side of double-sided fusible web. Fuse double-sided fusible web to wrong side of piece of knit.

3. Cut letter out along its outlines. Remove paper backing and determine placement of letter on front panel, using plastic template as guide, and pin letter carefully in place before fusing it to front panel.

4. Pin piece of tear-away backing under letter “E” to wrong side of front panel.

5. Fuse letter in place and appliqué its edges with reinforced straight stitch.

6. Remove tear-away backing and secure thread ends carefully to wrong side.

PRINT

7. Spray adhesive on wrong side of template and bond template to front panel. Secure edges of template in place with painter's tape and cover rest of front panel to protect it from paint splashes.

8. Pour a small amount of paint on disposable plate and dab sponge in it so that paint gets evenly distributed on sponge.

9. Dab a small amount of paint at a time in openings on template with sponge.

10. Allow print to dry properly and fix it to fabric by pressing, following directions on paint container.
